

Assignment2: Computer Vision (CS441)

Submitted by: Divya Dayashankar Jaiswal (1812736, BTech Computer Science Section A)

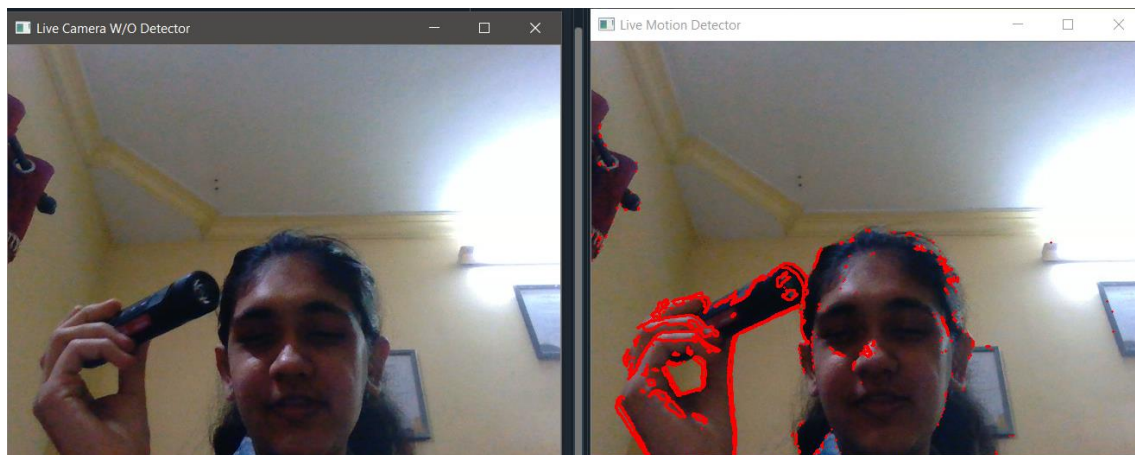

Motion Detection: Output Images

Here red outlines under “live motion detector” frames mark the motion detected area. Whereas the “live camera w/o detector” shows the input stream.

Snapshot1: Still (No Motion)

Snapshot2: Under Motion

Snapshot 3: Under Motion
